RE: 2003 Annual Report of the Sample Meter Test Plan
Case No. 2000-022

Dear Ms. O'Donnell,

Clark Energy Cooperative, Inc. is submitting the 2003 Annual Report for our approved Sample Meter Test Plan (SMTP). The 2003 Annual Report for the SMTP is being filed by electronic mail (e-mail) with Gary Grubbs, Manager of the Electric Branch consistent with the Commission's electronic filing initiative. An original copy of this transmittal letter is being forwarded to Mr. Grubbs for the Commission's files. All meter sampling and testing summarized within the 2003 Annual Report for the SMTP is consistent with:

1. All provisions of the Sample Meter Test Plan (SMTP), Case No. 2000-022, approved by an order of the Commission dated February 28, 2000.
2. PSC administrative regulation 807 KAR 5:041, Section 16 governing all sample meter test plans.
3. PSC administrative regulation 807 KAR 5:041, Section 17 governing all meter testing.
4. PSC administrative regulation 807 KAR 5:006, Section 17 governing all meter test results.

The 2003 Annual Report for the SMTP includes a tabular summary of all sample meter test results, a statistical analysis of certified meter tests for all random meter samples and quarterly meter test reports. All 2003 Annual Report documentation filed by e-mail for the SMTP is a true, accurate and complete representation of the original documents. Please contact Shannon Messer, System Engineer (smesser@clarkenergy.com) at Clark Energy if you have any questions or need additional information.

Sincerely,

Overt L. Carroll
President & CEO
